PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

1. Organization and description of business

PS Business Parks, Inc. ("PSB") was incorporated in the state of California in 1990. As of September 30, 2003, PSB owned approximately 75% of the common partnership units of PS Business Parks, L.P. (the "Operating Partnership" or "OP"). The remaining common partnership units were owned by Public Storage, Inc. ("PSI") and its affiliated entities. PSB, as the sole general partner of the Operating Partnership, has full, exclusive and complete responsibility and discretion in managing and controlling the Operating Partnership. PSB and the Operating Partnership are collectively referred to as the "Company."

The Company is a fully-integrated, self-advised and self-managed real estate investment trust ("REIT") that acquires, develops, owns and operates commercial properties containing commercial and industrial rental space. As of September 30, 2003, the Company owned and operated approximately 14.8 million net rentable square feet of commercial space located in seven states. The Company also managed approximately 1.5 million net rentable square feet on behalf of PSI and its affiliated entities, and third party owners.

2. Summary of significant accounting policies

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The preparation of the condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and accompanying notes. Actual results could differ from estimates. In the opinion of management, all adjustments (consisting of normal recurring accruals) necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2003 are not necessarily indicative of the results that may be expected for the year ended December 31, 2003. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2002.

The condensed consolidated financial statements include the accounts of PSB and the Operating Partnership. All significant intercompany balances and transactions have been eliminated in the condensed consolidated financial statements.

Financial instruments

The methods and assumptions used to estimate the fair value of financial instruments is described below. The Company has estimated the fair value of financial instruments using available market information and appropriate valuation methodologies. Considerable judgement is required in interpreting market data to develop estimates of market value. Accordingly, estimated fair values are not necessarily indicative of the amounts that could be realized in current market exchanges.

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards ("SFAS") No. 133, "Accounting for Derivative Instruments and Hedging Activities," (SFAS 133, as amended by SFAS 138). The Statement requires the Company to recognize all derivatives on the balance sheet at fair value. Derivatives that are not hedges must be adjusted to fair value and the amount of the adjustment must be reflected as income or expense. If the derivative is a hedge, depending on the nature of the hedge, changes in the fair value of derivatives are either offset against the change in fair value of the hedged assets, liabilities, or firm commitments through earnings or recognized in other comprehensive income until the hedged item is recognized in earnings. The ineffective portion of a derivative's change in fair value is immediately recognized in earnings.

In July, 2002, the Operating Partnership entered into an interest rate swap agreement, which is accounted for as a cash flow hedge, to reduce the impact of changes in interest rates on its floating rate debt. The agreement, which covers \$50,000,000 of debt through July, 2004 effectively changes the interest rate exposure from floating rate to a fixed rate of 4.46%. Market gains and losses on the value of the swap are deferred and included in income over the life of the swap or related debt. The Operating Partnership records the differences paid or received on the interest rate swap in interest expense as payments are made or received.

Net interest differentials to be paid or received related to this contract were accrued as incurred or earned. Included in comprehensive income is \$782,000 in unrealized loss related to the interest rate swap as of September 30, 2003. Upon termination of the contract, the related balance in comprehensive income is recognized into income or expense in the period the contract matures or is terminated.

The Company considers all highly liquid investments with an original maturity of three months or less at the date of purchase to be cash equivalents. Due to the short period to maturity of the Company's cash and cash equivalents, accounts receivable, other assets and accrued and other liabilities, the carrying values as presented on the condensed consolidated balance sheets are reasonable estimates of fair value. Based on borrowing rates currently available to the Company, the carrying amount of debt approximates fair value.

Financial assets that are exposed to credit risk consist primarily of cash and cash equivalents and receivables. Cash and cash equivalents, which consist primarily of short-term investments, including commercial paper, are only invested in entities with an investment grade rating. Receivables are comprised of balances due from a large number of customers. Balances that the Company expects to become uncollectible are reserved for or written off.

Marketable securities

Marketable securities are classified as "available-for-sale" in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities." Investments are reflected on the balance sheet at fair market value based upon the quoted market price.

Real estate facilities

Real estate facilities are recorded at cost. Costs related to the renovation or improvement of the properties are capitalized. Expenditures for repairs and maintenance are expensed as incurred unless the expenditure is expected to benefit a period greater than 30 months and exceeds \$5,000. Buildings and equipment are depreciated on the straight-line method over the estimated useful lives, which are generally 30 and 5 years, respectively. Leasing costs in excess of \$1,000 for leases with terms greater than two years are capitalized and

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

depreciated/amortized over their estimated useful lives. Leasing costs for leases of less than two years or less than \$1,000 are expensed as incurred.

Interest cost and property taxes incurred during the period of construction of real estate facilities are capitalized. The Company did not capitalize any interest costs for the nine months ended September 30, 2003 compared to \$288,000 of capitalized interest expense during the same period for 2002.

Investment in joint venture

In October 2001, the Company formed a joint venture with an unaffiliated investor to own and operate an industrial park consisting of 14 buildings in the City of Industry submarket of Los Angeles County. The park, consisting of 294,000 square feet of industrial space, was acquired by the Company in December 2000 at a cost of approximately \$14.4 million. The property was contributed to the joint venture at its original cost. The partnership was capitalized with equity capital consisting of 25% from the Company and 75% from the unaffiliated investor in addition to a mortgage note payable.

During 2002, the joint venture sold eight of the buildings totaling approximately 170,000 square feet. The Company recognized gains of approximately \$861,000 on the disposition of these eight buildings. In addition, the Company's interest in cash distributions from the joint venture increased from 25% to 50% as a result of the joint venture meeting its performance measures. Therefore, the Company recognized additional income of \$1,008,000 in 2002. As of December 31, 2002, the joint venture held six buildings totaling 124,000 square feet. During January, 2003, five of the remaining six buildings were sold and the Company recognized gains of approximately \$1.1 million as a result of these sales and additional income of approximately \$700,000. The remaining building, with approximately 29,000 square feet was sold in April, 2003. The Company recognized a gain of approximately \$300,000 and additional income of approximately \$200,000 during the second quarter of 2003.

The Company's investment is accounted for under the equity method in accordance with APB 18, "Equity Method of Accounting for Investments." In accordance with APB 18, the Company's share of the debt was netted against its share of the assets in determining the investment in the joint venture and was not included in the Company's total liabilities. The accounting policies of the joint venture are consistent with the Company's accounting policies.

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

The Company's investment	<u>\$ 100,000</u>	<u>\$ 1,057,000</u>

Intangible assets

Intangible assets consist of property management contracts for properties managed, but not owned, by the Company. The intangible assets are being amortized over seven years. Intangible assets are net of accumulated amortization of \$2,005,000 and \$1,779,000 at September 30, 2003 and December 31, 2002, respectively.

Evaluation of asset impairment

The Company evaluates its assets used in operations by identifying indicators of impairment and by comparing the sum of the estimated undiscounted future cash flows for each asset to the asset's carrying amount. When indicators of impairment are present and the sum of the undiscounted future cash flows is less than the carrying amount of such asset, an impairment loss is recorded equal to the difference between the asset's current carrying amount and its value based on discounting its estimated undiscounted future cash flows. In addition, the Company evaluates its assets held for disposition. Assets held for disposition are reported at the lower of their carrying amount or fair value, less cost of disposition. During 2003, the Company identified certain assets,

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

classified as properties held for disposition, that were impaired. As a result, the Company recognized an impairment loss of \$5.9 million in the first quarter of 2003. See note 3.

Revenue and expense recognition

All leases are classified as operating leases. Rental income is recognized on a straight-line basis over the terms of the leases. Reimbursements from tenants for real estate taxes and other recoverable operating expenses are recognized as revenues in the period the applicable costs are incurred.

Costs incurred in connection with leasing (primarily tenant improvements and leasing commissions) are capitalized and amortized over the lease period.

Property management fees are recognized in the period earned.

Gains/Losses from sales of real estate

The Company recognizes gains from sales of real estate at the time of sale using the full accrual method, provided that various criteria related to the terms of the transactions and any subsequent involvement by the Company with the properties sold are met. If the criteria are not met, the Company defers the gains and recognizes them when the criteria are met or using the installment or cost recovery methods as appropriate under the circumstances.

The Company disposed of a property in San Diego for approximately \$9 million in November 2001 and deferred a gain of \$5,366,000 which was later recognized in 2002 when the buyer of the property obtained third party financing for the property and substantially paid off its note to the Company. The note receivable balance was paid in full during 2002.

General and administrative expense

General and administrative expense includes executive compensation, office expense, professional fees, state income taxes, cost of acquisition personnel, cost of the business services program, and other such administrative items.

Related party transactions

Pursuant to a cost sharing and administrative services agreement, the Company shares costs with PSI and affiliated entities for certain administrative services, which are allocated among PSI and its affiliates in accordance with a methodology intended to fairly allocate those costs. These costs totaled approximately \$255,000 for each of the nine month periods ended September 30, 2003 and 2002. In addition, the Company provides property management services for properties owned by PSI and its affiliates for a fee of 5% of the gross revenues of such properties in addition to reimbursement of direct costs. These management fee revenues recognized under management contracts with affiliated parties totaled approximately \$439,000 and \$454,000 for the nine months ended September 30, 2003 and 2002, respectively. In addition, the Company combines its insurance purchasing power with PSI through a captive insurance company controlled by PSI, STOR-Re Mutual Insurance Corporation ("Stor-Re"). Stor-Re provides limited property and liability insurance to the Company at commercially competitive rates. The Company and PSI also utilize unaffiliated insurance carriers to provide property and liability insurance in excess of Stor-Re's limitations.

Income taxes

The Company qualified and intends to continue to qualify as a REIT, as defined in Section 856 of the Internal Revenue Code. As a REIT, the Company is not subject to federal income tax to the extent that it distributes its taxable income to its shareholders. A REIT must distribute at least 90% of its taxable income each year. In addition, REIT's are subject to a number of organizational and operating requirements. If the Company fails to qualify as a REIT in any taxable year, the Company will be subject to federal income tax (including any applicable alternative minimum tax) based on its taxable income using corporate income tax rates. Even if the Company qualifies for taxation as a REIT, the Company may be subject to certain state and local taxes on its income and property and to federal income and excise taxes on its undistributed taxable income. The Company believes it met all organizational and operating requirements to maintain its REIT status during 2002 and intends to continue to meet such requirements for 2003. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

3. Real estate facilities

The activity in real estate facilities for the nine months ended September 30, 2003 is as follows:

	Land	Buildings	Accumulated Depreciation	Total
Balances at December 31, 2002	\$ 286,301,000	\$ 968,473,000	\$(177,229,000)	\$1,077,545,000

Disposition of real estate.....	(2,250,000)	(6,942,000)	1,670,000	(7,522,000)
Developed projects.....	-	492,000	-	492,000
Capital improvements.....	-	25,637,000	-	25,637,000
Depreciation expense.....	-	-	(43,011,000)	(43,011,000)
Transfer to properties held for disposition	(8,764,000)	(36,794,000)	6,940,000	(38,618,000)
Balances at September 30, 2003....	<u>\$ 285,593,000</u>	<u>\$ 993,536,000</u>	<u>\$(211,630,000)</u>	<u>\$1,067,499,000</u>

During the nine months ended September 30, 2003, the Company incurred \$492,000 in development costs, primarily first generation leasing costs on developed properties.

During the nine months ended September 30, 2003, the Company completed the acquisitions of Westwood Business Park, containing 113,000 square feet of flex space in the Farmer's Branch submarket of Dallas, Texas for \$7.8 million and a business park known as Orange County Business Center containing five low-rise office buildings and 437,000 square feet for approximately \$45.2 million. The values assigned to the assets acquired were determined using traditional real estate valuation methodologies. In accordance with SFAS 141, the Company assesses the market value of in-place leases based upon their best estimate of current market rents. In-place leases on properties acquired during 2003 approximate market value on the date of acquisition.

Eight buildings, consisting of one property located in Lakewood, California, two buildings located in Nashville, Tennessee, and five office and flex buildings and 4.5 acres of land in Beaverton, Oregon were identified as not meeting the Company's ongoing investment strategy. The sale of the Lakewood property was completed in April, 2003 with net proceeds of approximately \$6.3 million. The sale of the Nashville properties was completed in June, 2003 with net proceeds of \$5.1 million. The Beaverton properties were under contract to be sold with estimated proceeds of approximately \$34.5 million. The contract was terminated in May, 2003, but the properties continue to be held for disposition. A gain on the Lakewood and Nashville properties of \$3.5 million was recognized in the second quarter of 2003. During the third quarter of 2003, the Company sold a one-acre parcel of land located in Beaverton, Oregon with net proceeds of approximately \$733,000. The transaction was completed in July, 2003 at a gain of approximately \$14,000. An impairment loss of \$5.9 million based on the estimated proceeds from the disposition of the Beaverton, Oregon properties was recognized in the first quarter of 2003. The following summarizes the condensed results of operations of the properties held for disposition at September 30, 2003 and properties sold during 2002 and 2003, which are also included in the condensed consolidated statements of income:

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

	For the Nine Months Ended September 30,	
	2003	2002
Rental income	\$ 4,388,000	\$ 8,136,000
Cost of operations	(997,000)	(2,754,000)
Depreciation expense	(51,000)	(1,721,000)
Net income from discontinued operations	\$ 3,340,000	\$ 3,661,000

4. Leasing activity

The Company leases space in its real estate facilities to tenants under non-cancelable leases generally ranging from one to ten years. Future minimum rental revenues excluding recovery of expenses as of September 30, 2003 under these leases are as follows:

2003 (October – December)	\$ 51,868,000
2004	156,453,000
2005	119,322,000
2006	79,225,000
2007	54,312,000
Thereafter	99,871,000
	\$ 561,051,000

In addition to minimum rental payments, tenants pay reimbursements for their pro rata share of specified operating expenses, which amounted to \$20.0 million and \$21.0 million for the nine months ended September 30, 2003 and 2002, respectively. These amounts are included as rental income and cost of operations in the accompanying condensed consolidated statements of income.

Leases for approximately 5% of the leased square footage are subject to termination options which includes leases for approximately 2% of the leased square footage having termination options exercisable through December 31, 2004. In general, these leases provide for termination payments should the termination options be exercised. The above table is prepared assuming such options are not exercised.

5. Bank Loans

In October 2002, the Company extended its unsecured line of credit (the “Credit Facility”) with Wells Fargo Bank. The Credit Facility has a borrowing limit of \$100 million and an expiration date of August 1, 2005. Interest on outstanding borrowings is payable monthly. At the option of the Company, the rate of interest charged is equal to (i) the prime rate or (ii) a rate ranging from the London Interbank Offered Rate (“LIBOR”) plus 0.65% to LIBOR plus 1.25% depending on the Company’s credit ratings and coverage ratios, as defined

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

(currently LIBOR plus 0.85%). In addition, the Company is required to pay an annual commitment fee of 0.25% of the borrowing limit. The Company had nothing drawn on its line of credit at September 30, 2003 and December 31, 2002.

The Credit Facility requires the Company to meet certain covenants including (i) maintain a balance sheet leverage ratio (as defined) of less than 0.45 to 1.00, (ii) maintain interest and fixed charge coverage ratios (as defined) of not less than 2.25 to 1.00 and 1.75 to 1.00, respectively, (iii) maintain a minimum tangible net worth (as defined) and (iv) limit distributions to 95% of funds from operations (as defined) for any four consecutive quarters. In addition, the Company is limited in its ability to incur additional borrowings (the Company is required to maintain unencumbered assets with an aggregate book value equal to or greater than two times the Company's unsecured recourse debt) or sell assets. The Company was in compliance with the covenants of the Credit Facility at September 30, 2003.

In February 2002, the Company entered into a seven year \$50 million unsecured term note agreement with Fleet National Bank. The note bears interest at LIBOR plus 1.45% per annum and is due on February 20, 2009. The Company used the proceeds from the loan to reduce the amount drawn on the Credit Facility. During July 2002, the Company entered into an interest rate swap transaction which resulted in a fixed rate for the term loan through July 2004 at 4.46% per annum.

The unsecured note requires the Company to meet covenants that are substantially the same as the covenants in the Credit Facility. The Company was in compliance with the note covenants at September 30, 2003.

6. Mortgage notes payable

Mortgage notes consist of the following:	September 30, 2003	December 31, 2002
7.050% mortgage note, principal and interest payable monthly, due May 2006.....	\$ 7,996,000	\$ 8,164,000
8.190% mortgage note, principal and interest payable monthly, due March 2007.....	5,893,000	6,067,000
7.290% mortgage note, principal and interest payable monthly, due February 2009.....	5,955,000	6,048,000
	\$ 19,844,000	\$20,279,000

At September 30, 2003, approximate principal maturities of mortgage notes payable are as follows:

2003 (October - December).....	\$ 151,000
2004.....	631,000
2005.....	680,000
2006.....	7,890,000
2007.....	5,169,000
Thereafter	5,323,000
	\$ 19,844,000

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

7. Minority interests

Common partnership units

The Company presents the accounts of PSB and the Operating Partnership on a consolidated basis. Ownership interests in the Operating Partnership, other than PSB's interest, are classified as minority interest in the consolidated financial statements. Minority interest in income consists of the minority interests' share of the consolidated operating results.

Beginning one year from the date of admission as a limited partner (common units) and subject to certain limitations described below, each limited partner other than PSB has the right to require the redemption of its partnership interest.

A limited partner (common units) that exercises its redemption right will receive cash from the Operating Partnership in an amount equal to the market value (as defined in the Operating Partnership Agreement) of the partnership interests redeemed. In lieu of the Operating Partnership redeeming the partner for cash, PSB, as general partner, has the right to elect to acquire the partnership interest directly from a limited partner exercising its redemption right, in exchange for cash in the amount specified above or by issuance of one share of PSB common stock for each unit of limited partnership interest redeemed.

A limited partner cannot exercise its redemption right if delivery of shares of PSB common stock would be prohibited under the applicable articles of incorporation, if PSB believes that there is a risk that delivery of shares of common stock would cause PSB to no longer qualify as a REIT, would cause a violation of the applicable securities laws, or would result in the Operating Partnership no longer being treated as a partnership for federal income tax purposes.

At September 30, 2003, there were 7,305,355 common units owned by PSI and affiliated entities and which are accounted for as minority interests. On a fully converted basis, assuming all 7,305,355 minority interest common units were converted into shares of common stock of PSB at September 30, 2003, the minority interest units would convert into approximately 25.4% of the common shares outstanding. Combined with PSI's common stock ownership of 18.8% on a fully converted basis, PSI has a combined ownership of 44.2% of the Company's common equity at September 30, 2003. At the end of each reporting period, the Company determines the amount of equity (book value of net assets) which is allocable to the minority interest based upon the ownership interest and an adjustment is made to the minority interest, with a corresponding adjustment to paid-in capital, to reflect the minority interests' equity in the Company.

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

Preferred partnership units

Through the Operating Partnership, the Company has issued the following preferred units in separate private placement transactions:

Date of Issuance	Call Date	Series	Face Value	Preferred Distribution Rate
April, 1999	April, 2004	Series B	\$ 12,750,000	8 7/8%
September, 1999	September, 2004	Series C	80,000,000	8 3/4%
September, 2001	September, 2006	Series E	53,000,000	9 1/4%
October, 2002	October, 2007	Series G	20,000,000	7 19/20%
September, 1999	September, 2004	Series X	40,000,000	8 7/8%
July, 2000	July, 2005	Series Y	12,000,000	8 7/8%
			<u>\$ 217,750,000</u>	

The Operating Partnership has the right to redeem preferred units on or after the fifth anniversary of the applicable issuance date at the original capital contribution plus the cumulative priority return, as defined, to the redemption date to the extent not previously distributed. The preferred units are exchangeable for Cumulative Redeemable Preferred Stock of the respective series of PSB on or after the tenth anniversary of the date of issuance at the option of the Operating Partnership or a majority of the holders of the respective preferred units. The Cumulative Redeemable Preferred Stock will have the same distribution rate and par value as the corresponding preferred units and will otherwise have equivalent terms to the other series of preferred stock described in Note 9.

8. Property management contracts

The Operating Partnership manages industrial, office and retail facilities for PSI and affiliated entities. These facilities, all located in the United States, operate under the "Public Storage" or "PS Business Parks" names. In addition, the Operating Partnership manages properties for third party owners.

The property management contracts provide for compensation equal to a percentage of the gross revenues of the facilities managed. Under the supervision of the property owners, the Operating Partnership coordinates rental policies, rent collections, marketing activities, the purchase of equipment and supplies, maintenance activities, and the selection and engagement of vendors, suppliers and independent contractors. In addition, the Operating Partnership assists and advises the property owners in establishing policies for the hire, discharge and supervision of employees for the operation of these facilities, including property managers and leasing, billing and maintenance personnel.

The property management contract with PSI is for a seven year term with the term being automatically extended one year on each anniversary. At any time, either party may notify the other that the contract is not to be extended, in which case the contract will expire on the first anniversary of its then scheduled expiration date. For PSI affiliate owned properties, PSI can cancel the property management contract upon 60 days notice while the Operating Partnership can cancel upon seven years notice.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

9. Shareholders' equity

Preferred stock

As of September 30, 2003 and December 31, 2002, the Company had the following series of preferred stock outstanding:

Series	Dividend Rate	September 30, 2003		December 31, 2002	
		Shares Outstanding	Carrying Amount	Shares Outstanding	Carrying Amount
Series A	9.250%	2,113	\$ 52,823,000	2,199	\$ 54,963,000
Series D	9.500%	2,634	\$ 65,850,000	2,634	\$ 65,850,000
Series F	8.750%	2,000	\$ 50,000,000	2,000	\$ 50,000,000
		<u>6,747</u>	<u>\$ 168,673,000</u>	<u>6,833</u>	<u>\$ 170,813,000</u>

Holders of the Company's preferred stock will not be entitled to vote on most matters, except under certain conditions. In the event of a cumulative arrearage equal to six quarterly dividends, the holders of the preferred stock will have the right to elect two additional members to serve on the Company's Board of Directors until all events of default have been cured. At September 30, 2003, there were no dividends in arrears.

Except under certain conditions relating to the Company's qualification as a REIT, the preferred stock is not redeemable prior to the following dates: Series A - April 30, 2004, Series D - May 10, 2006 and Series F - January 28, 2007. On or after the respective dates, the respective series of preferred stock will be redeemable, at the option of the Company, in whole or in part, at \$25 per depository share, plus any accrued and unpaid dividends.

On May 22, 2003 and September 30, 2003, the Company repurchased 7,300 and 78,300 depository units of Series A preferred stock at \$26.00 and \$25.65 per unit, for \$190,000 and \$2.0 million, respectively. The stated value of the stock was \$25 per depository share. The premium and original issuance costs were recorded as an additional distribution to preferred shareholders. The aggregate effect was a reduction of \$127,000 of net income and funds from operations allocable to common shareholders and unit holders.

The Company paid \$11,905,000 and \$11,483,000, in distributions to its preferred shareholders for the nine months ended September 30, 2003 and 2002, respectively, which includes the effect of the repurchase of the Series A preferred stock previously mentioned.

Common Stock

The Company's Board of Directors has authorized the repurchase from time to time of up to 4,500,000 shares of the Company's common stock on the open market or in privately negotiated transactions. During the nine months ended September 30, 2003, the Company has repurchased 261,200 shares of common stock at an aggregate cost of approximately \$8,119,000 (average cost of \$31.08 per share). Since the inception of the program (March 2000), the Company has repurchased an aggregate total of 2,652,195 shares of common stock

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

and common partnership units at an aggregate cost of approximately \$70,693,600 (average cost of \$26.65 per share).

The Company paid \$18,624,000 (\$0.87 per common share) and \$21,979,000 (\$1.02 per common share) in distributions to its common shareholders for the nine months ended September 30, 2003 and 2002, respectively. The amount paid during the first nine months of 2002 included a special dividend of \$3,231,000 (\$0.15 per common share) declared in 2001. Pursuant to restrictions imposed by the Credit Facility, distributions may not exceed 95% of funds from operations, as defined.

Equity stock

In addition to common and preferred stock, the Company is authorized to issue 100,000,000 shares of Equity Stock. The Articles of Incorporation provide that the Equity Stock may be issued from time to time in one or more series and give the Board of Directors broad authority to fix the dividend and distribution rights, conversion and voting rights, redemption provisions and liquidation rights of each series of Equity Stock.

10. Commitments and Contingencies

The Company currently is neither subject to any material litigation nor, to management's knowledge, is any material litigation currently threatened against the Company other than routine litigation and administrative proceedings arising in the ordinary course of business. Management believes that these items will not have a material adverse impact on the Company's condensed consolidated financial position or results of operations.

11. Stock Based Compensation

Until December 31, 2001, the Company followed the disclosure requirements of SFAS No. 123 but accounted for stock-based compensation under APB 25. Effective January 1, 2002, the Company adopted the Fair Value Method of accounting for stock options. As required by the transition requirements of SFAS No. 123 as amended by SFAS No. 123, the Company will recognize compensation expense in the income statement using the Fair Value Method only with respect to stock options issued after January 1, 2002, but continue to disclose the pro forma impact of utilizing the Fair Value Method on stock options issued prior to January 1, 2002. As a result, included in the Company's income statement for the nine months ended September 30, 2003 is approximately \$242,000 in stock option compensation expense related to options granted after January 1, 2002.

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

The weighted average fair value of the options at the grant dates for 2003 was \$4.50. Had compensation cost for the 1997 Stock Option and Incentive Plan (the "Plan") for options granted prior to December 31, 2001 been determined based on the fair value at the grant date for awards under the Plan consistent with the method prescribed by SFAS No. 123, the Company's pro forma net income available to common shareholders would have been:

	For the Nine Months Ended September 30,	
	2003	2002
Net income allocable to common shareholders, as reported.....	\$ 26,586,000	\$ 32,535,000
Deduct: Total stock-based employee compensation expense determined under fair value based method of all awards...	538,000	603,000
Net income allocable to common shareholders, as adjusted.....	\$ 26,048,000	\$ 31,932,000
Earnings per share:		
Basic as reported.....	\$ 1.24	\$ 1.51
Basic as adjusted	\$ 1.22	\$ 1.48
Diluted as reported.....	\$ 1.24	\$ 1.49
Diluted as adjusted.....	\$ 1.21	\$ 1.47

For these disclosure purposes, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions used for grants in 2003 and 2002: dividend yield of 3.5% and 3.4%; expected volatility of .158 and .154; expected lives of five years; and risk-free interest rates of 4.0% and 4.3%. The pro forma effect on net income allocable to common shareholders during the nine months ended September 30, 2003, and 2002, may not be representative of the pro forma effect on net income allocable to common shareholders in future years.

The Company has granted 131,250 restricted stock units under the Plan since inception. At September 30, 2003, 94,450 restricted stock units were outstanding. The restricted stock units were granted at a zero exercise price. The fair market value of the restricted stock units at the date of grant ranged from \$24.02 to \$39.40 per restricted stock unit. The restricted stock units issued prior to August, 2002 (57,450 units) are subject to a five-year vesting schedule, at 30% in year three, 30% in year four and 40% in year five. Restricted stock issued subsequent to August, 2002 (37,000 units) are subject to a six year vesting schedule, none in year one and 20% for each of the next five years. Compensation expense of \$481,000 and \$371,000 was recognized during the nine months ended September 30, 2003 and 2002, respectively. During 2003, 5,500 shares of restricted stock became vested which were redeemed by the Company for approximately \$198,000.

In March 2003, the Board of Directors approved the 2003 Stock Option and Incentive Plan covering 1,500,000 shares of PSB's common stock. Shareholders approved adoption of this plan in May, 2003.

PS BUSINESS PARKS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2003

12. Recent Accounting Pronouncements

In November 2002, the FASB issued FASB Interpretation No. 45, "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others" (FIN 45"). This interpretation expands the disclosures to be made by a guarantor in its financial statements about its obligations under certain guarantees and requires the guarantor to recognize a liability for the fair value of an obligation assumed under a guarantee. FIN 45 clarifies the requirements of SFAS 5, "Accounting for Contingencies," relating to guarantees. In general, FIN 45 applies to contracts or indemnification agreements that contingently require the guarantor to make payments to the guaranteed party based on changes in an underlying variable that is related to an asset, liability, or equity security of the guaranteed party. The adoption of FIN 45 did not have a material impact on the results of operations or the financial position of the Company.

In January 2003, the FASB issued FASB Interpretation No. 46, "Consolidation of Variable Interest Entities" ("FIN 46"), which is effective for the Company on July 1, 2003. FIN 46 requires a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual returns or both. FIN 46 also requires additional disclosures by primary beneficiaries and other significant variable interest holders. The impact upon adoption of FIN 46 is being currently evaluated, but the Company expects that its adoption will not have a material impact on the results of operations or the financial position of the Company.

In May 2003, the FASB issued SFAS No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity" ("SFAS 150"), which is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. SFAS 150 affects the issuer's accounting for certain types of freestanding financial instruments. In addition to its requirements for the classification and measurement of financial instruments in its scope, SFAS 150 also requires disclosures about alternative ways of settling the instruments and the capital structure of entities (in the case of entities whose share are mandatorily redeemable). The adoption of SFAS 150 did not have a material impact on the results of operations or the financial position of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward-Looking Statements: Forward-looking statements are made throughout this Quarterly Report on Form 10-Q. For this purpose, any statements contained herein that are not statements of historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "believes," "anticipates," "plans," "expects," "seeks," "estimates," and similar expressions are intended to identify forward-looking statements. There are a number of important factors that could cause the results of the Company to differ materially from those indicated by such forward-looking statements, including those detailed under the heading "Item 2A. Risk Factors." In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of such information should not be regarded as a representation by us or any other person that our objectives and plans will be achieved. Moreover, we assume no obligation to update these forward-looking statements to reflect actual results, changes in assumptions or changes in other factors affecting such forward-looking statements.

Overview

Critical Accounting Policies and Estimates: Our significant accounting policies are described in Note 2 to the condensed consolidated financial statements included in this Form 10-Q. We believe our most critical accounting policies relate to revenue recognition, allowance for doubtful accounts, impairment of long-lived assets, capitalization of real estate facilities, depreciation, accrual of operating expenses, accruals for contingencies, and qualifications as a REIT – Income tax expense, each of which we discuss below.

Revenue Recognition: We recognize revenue in accordance with Staff Accounting Bulletin ("SAB") No. 101 of the Securities and Exchange Commission, Revenue Recognition in Financial Statements, as amended. SAB 101 requires that four basic criteria must be met before revenue can be recognized: persuasive evidence of an arrangement exists; the delivery has occurred or services rendered; the fee is fixed and determinable; and collectibility is reasonably assured.

Allowance for Doubtful Accounts: Rental revenue from our tenants is our principal source of revenue. We monitor the collectibility of our receivable balances including the deferred rent receivable on an on-going basis. Based on these reviews, we establish a provision, and maintain an allowance, for doubtful accounts for estimated losses resulting from the possible inability of some of our tenants to make required rent payments to us. A provision for doubtful accounts is recorded during each period. The allowance for doubtful accounts, which represents the cumulative allowances less write-offs of uncollectible rent, is netted against tenant and other receivables on our consolidated balance sheets. If we incorrectly determine the collectibility of our revenue, the timing and amount of our reported revenue could be affected.

Impairment of Long-Lived Assets: The Company evaluates its assets used in operations, by identifying indicators of impairment and by comparing the sum of the estimated undiscounted future cash flows for each asset to the asset's carrying amount. Our long-lived assets consist primarily of our investments in real estate. The fair value of our investments in real estate depends on the future cash flows from operations of the properties. If the estimated future cash flow of the property results in a determination that the fair value is less than our carrying amount, an impairment may be recognized. As of September 30, 2003, the Company does not consider any of its long-lived assets held for continuing operations to be impaired. During the nine months ended September 30, 2003 the Company recognized an impairment loss of \$5.9 million on properties the Company determined would be held for sale.

Capitalization of Real Estate Facilities: Real estate facilities are recorded at cost. Costs related to the renovation or improvement of the properties are capitalized. Expenditures for repairs and maintenance are expensed as incurred. Expenditures that are expected to benefit a period greater than 30 months and exceed \$5,000 are capitalized and depreciated over the estimated useful life. Buildings and equipment are depreciated on the straight-line method over the estimated useful lives, which are generally 30 and 5 years, respectively. Leasing costs in excess of \$1,000 for leases with terms greater than two years are capitalized and depreciated/amortized over their estimated useful lives. Leasing costs for leases of less than two years or less than \$1,000 are expensed as incurred. Interest cost and property

taxes incurred during the period of construction of real estate facilities are capitalized. If these costs are not capitalized correctly, the timing of expenses and the recording of real estate assets could be over or understated.

Depreciation: We compute depreciation on our buildings and equipment using the straight-line method based on estimated useful lives of generally 30 and 5 years. A significant portion of the acquisition cost of each property is allocated to building and building components (usually 80-85%). The allocation of the acquisition cost to building and its components and the determination of the useful life are based on management's estimates. If we do not allocate appropriately to building or related components or incorrectly estimate the useful life of our properties, the timing and/or the amount of depreciation expense will be affected. In addition, the net book value of real estate assets could be over or understated. The statement of cash flows, however, would not be affected.

Accruals of Operating Expenses: The Company accrues for property tax expenses, performance bonuses and other operating expenses each quarter based on historical trends and anticipated disbursements. If these estimates are incorrect, the timing of expense recognition will be affected.

Accruals for Contingencies: The Company is exposed to business and legal liability risks with respect to events that have occurred, but in accordance with generally accepted accounting principles has not accrued for such potential liabilities because the loss is either not probable or not estimable. Future events and the result of pending litigation could result in such potential losses becoming probable and estimable, which could have a material adverse impact on our financial condition or results of operations.

Clarification of Emerging Issues Task Force Topic D-42 and Impact on Reported Earnings Per Common Share: Emerging Issues Task Force ("EITF") Topic D-42, "The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock" provides, among other things, that any excess of (1) the fair value of the consideration transferred to the holders of preferred stock redeemed over (2) the carrying amount of the preferred stock should be subtracted from net earnings to determine net earnings available to common stockholders in the calculation of earnings per share.

At the July 31, 2003 meeting of the EITF, the Securities and Exchange Commission's observer clarified that for the purposes of applying EITF Topic D-42, the carrying amount of the preferred stock should be reduced by the issuance costs of the preferred stock upon redemption, regardless of where in the stockholders' equity section those costs were initially classified on issuance. The Company records its issuance costs as a reduction to Paid-in Capital on its balance sheet at the time the preferred securities are issued and reflects the carrying value of the preferred stock at the stated value. The Company reduces the carrying value of preferred stock by the issuance costs at the time of redemption to comply with EITF Topic D-42.

Qualification as a REIT – Income Tax Expense: We believe that we have been organized and operated, and we intend to continue to operate, as a qualifying REIT under the Internal Revenue Code and applicable state laws. A qualifying REIT generally does not pay corporate level income taxes on its taxable income that is distributed to its shareholders, and accordingly, we do not pay or record as an expense, income tax on the share of our taxable income that is distributed to shareholders.

Given the complex nature of the REIT qualification requirements, the ongoing importance of factual determinations and the possibility of future changes in our circumstances, we cannot provide any assurance that we actually have satisfied or will satisfy the requirements for taxation as a REIT for any particular taxable year. For any taxable year that we fail or failed to qualify as a REIT and applicable relief provisions did not apply, we would be taxed at the regular corporate rates on all of our taxable income, whether or not we made or make any distributions to our shareholders. Any resulting requirement to pay corporate income tax, including any applicable penalties or interest, could have a material adverse impact on our financial condition or results of operations. Unless entitled to relief under specific statutory provisions, we also would be disqualified from taxation as a REIT for the four taxable years following the year during which qualifications was lost. There can be no assurance that we would be entitled to any statutory relief.

Effect of Economic Conditions on the Company's Operations: During 2002 and continuing into 2003, the Company has been affected by the slowdown in economic activity in the United States in most of its primary markets. These effects were exacerbated by the terrorist attacks of September 11, 2001, and the related aftermath including geopolitical uncertainty and war with Iraq. These effects include a decline in occupancy rates and a reduction in market rates throughout the portfolio, slower than expected lease-up of the Company's development properties, lower interest rates on invested cash and a rise in insurance costs.

The reduction in occupancies and market rental rates has been the result of several factors related to general economic conditions. There are more businesses contracting than expanding, more businesses failing than starting-up and general uncertainty for businesses, resulting in slower decision-making and requests for shorter-term leases. There is also more competing vacant space including substantial amounts of sub-lease space in many of the Company's markets. Many of the Company's properties have lower vacancy rates than the average rates for the markets in which they are located; consequently, the Company may have difficulty in maintaining its occupancy rates as leases expire. Leases representing 27.4% of the Company's expiring space expires in 2003 or 2004 (leases for 12.6% of the space occupied by small tenants expire in such years). An extended economic slowdown will put additional downward pressure on occupancies and market rental rates. The economic slowdown and the abundance of space alternatives available to customers has led to pressure for greater rent concessions, more generous tenant improvement allowances and higher broker commissions.

These economic conditions have also resulted in the erosion of tenant credit quality throughout the portfolio. As a result, more tenants are contacting us regarding their economic viability, including those that could be material to our revenue base and more tenants are electing to terminate their leases early under lease termination options. To a certain extent, these economic conditions have affected two large tenants representing a combined 2% of the Company's revenues. Leases with Worldcom and a related Worldcom entity, both of which are in bankruptcy, generate approximately 0.5% of our revenues. Worldcom and its bankrupt related entity have recently notified us that they are rejecting leases representing approximately 0.2% of our revenues and are threatening to reject the other leases with us. In addition, we believe that a second Worldcom related entity, although not in bankruptcy, may be in financial difficulty. A lease with this second Worldcom related entity generates approximately 0.5% of our revenues. Another large tenant representing approximately 1% of revenues defaulted on its lease obligations in the third quarter of 2002. This tenant cured the default in 2002, but has gone into default again during the second and third quarters of 2003. The tenant is requesting a modification of its lease. Several other of our large tenants have contacted us, requesting early termination of their lease, rent reduction in space under lease, rent deferment or abatement. At this time, the Company cannot anticipate what impact, if any, the ultimate outcome of these discussions will have on our operating results.

The Company's two development properties were 69.6% leased in the aggregate as of September 30, 2003, but they have not been leased as rapidly as the Company had anticipated. The development properties consist of a 141,000 square foot flex development in Northern Virginia that was 96% leased, and a 97,000 square foot development in the Beaverton submarket of Portland, Oregon that was 31% leased. The development in Beaverton, Oregon is held for disposition and is included in discontinued operations.

Effect of Economic Conditions on the Company's Primary Markets: The Company has concentrated its operations in seven major markets. Each of these markets has been affected by the slowdown in economic activity. The Company's overall view of these markets is summarized below as of September 30, 2003. For purposes of market occupancy statistics, the Company has compiled these statistics using broker reports for these respective markets. These sources are deemed to be reliable by the Company, but there can be no assurance that these reports are accurate.

The Company owns approximately 2.0 million square feet in the Beaverton submarket of Portland, Oregon. Leasing activity slowed dramatically during 2002 and continues to be slow in 2003, the vacancy rate in this market is over 22%. On the supply side, the Company does not believe significant new construction starts will occur in 2003. The Company's vacancy rate is 22.1%.

The Company owns approximately 1.5 million square feet in Northern California with a concentration in South San Francisco, Santa Clara and San Jose. The vacancy rates in these submarkets stand at 20%, 25% and 24%, respectively, or more

throughout most of the Bay Area. Market rental rates dropped dramatically in 2002 and continue to decrease. The Company's vacancy rate is 4.9%.

The Company owns approximately 3.5 million square feet in Southern California. This is one of the most stable markets in the country but continues to experience a reduction in leasing activity and lower rental rates. Vacancy rates have increased throughout Southern California for flex, industrial and office space, ranging from 15% to 20% for office and less than 7% for industrial, depending on sub-markets and product type. The rental rates for the Company's properties have dropped slightly. The Company's vacancy is 2.9%.

The Company owns approximately 0.8 million square feet in Austin, Texas. This market experienced a dramatic increase in office and flex vacancy, both running at 24% and 28%, respectively. One half of the office vacancy consists of sub-lease space. Construction deliveries of office and flex space continue to add to the vacancy rate resulting in downward pressure on rental rates. The Company's vacancy rate is 8.7%.

The Company owns approximately 2.0 million square feet in the Dallas Metroplex and Greater Houston. The vacancy rate in Las Colinas, where most of the Company's properties are concentrated, has risen to over 30% for office and 20% for industrial flex. Over the nine months ended September 30, 2003, the number of new properties constructed has decreased, virtually no new construction has commenced and very little pre-leasing of space has occurred. The Company believes that any such new construction will cause vacancy rates to rise. Leasing activity has slowed overall and sub-leasing is continuing to increase in the Telecom Corridor in North Dallas County. The Company's vacancy rate is 5.3%.

The Company owns approximately 2.6 million square feet in Northern Virginia, where the vacancy rate is 14.4% as of September 30, 2003. Vacancy rates have risen to over 25% in some of the sub-markets in the western technology corridor, such as Herndon, Chantilly and Sterling, primarily as a result of the decline in the technology sector. The Company's vacancy rate is 4.6%.

The Company owns approximately 1.6 million square feet in Maryland. The Company expects that the business of the GSA, defense contractors and the biotech industry will continue to grow in 2003. With most 2003 construction deliveries pre-leased, the Company expects that the vacancy rate, currently at 9.6% will remain flat or decline. The Company's vacancy rate is approximately 11.8%.

Growth of the Company's Operations and Acquisitions and Dispositions of Properties: During 2002 and 2003, the Company has focused on maximizing cash flow from its existing core portfolio of properties, seeking to expand its presence in existing markets through strategic acquisitions and developments and strengthening its balance sheet, primarily through the issuance of preferred stock/units. The Company has historically maintained low debt and overall leverage levels, including preferred stock/units, which the Company believes should give it the flexibility for future growth without the issuance of additional common stock.

During the first quarter of 2003, the Company completed the acquisition of Westwood Business Park, containing 113,000 square feet of flex space in the Farmer's Branch submarket of Dallas, Texas for \$7.8 million. During the second quarter of 2003, the Company completed the acquisition of a business park known as Orange County Business Center containing five low-rise office buildings and 437,000 square feet for approximately \$45.2 million. During 2002, the Company did not complete any acquisitions. The Company plans to continue to seek to build its presence in existing markets by acquiring high quality facilities in selected markets. The Company targets properties (i) with below market rents which may offer it growth in rental rates above market averages and (ii) which offer the Company the ability to achieve economies of scale resulting in more efficient operations.

During the first half of 2003, the Company identified a property in Lakewood, California with 57,000 square feet, two buildings in Nashville, Tennessee totaling 138,000 square feet, and five office and flex buildings totaling 342,000 square feet and a 3.5 acre parcel of vacant land in Beaverton, Oregon that did not meet its ongoing investment strategy. The sale of Lakewood, California was completed early in the second quarter of 2003 with net proceeds of approximately \$6.3 million. The sale of the Nashville properties was completed in June, 2003 with net proceeds of \$5.1 million. A gain on the Lakewood and Nashville properties of \$3.5 million was recognized in the second quarter of 2003. During the third quarter of 2003, the

Company sold a one-acre parcel of land located in Beaverton, Oregon with net proceeds of approximately \$733,000. The transaction was completed in July, 2003 at a gain of approximately \$14,000. The remaining Beaverton properties are held for disposition. An impairment loss of \$5.9 million based on the estimated proceeds from the disposition of the Beaverton, Oregon properties was recognized in the first quarter of 2003.

In 2002, the Company sold four properties totaling 386,000 square feet. The Company exited the San Antonio, Texas and Overland Park, Kansas markets. In addition, the Company sold a property located in Landover, Maryland that no longer met the Company's investment criteria. Net proceeds from the sales were approximately \$23.1 million and the Company recognized a net gain of \$2.7 million. In addition, during the first quarter of 2002, the Company recognized \$5.4 million of deferred gain from a sale completed in 2001.

Through a joint venture with an institutional investor, the Company held a 25% equity interest in an industrial park in the City of Industry, submarket of Los Angeles County. Initially the joint venture consisted of 14 buildings totaling 294,000 square feet. During 2002, the joint venture sold eight of the buildings totaling approximately 170,000 square feet. The Company recognized gains of approximately \$861,000 on the disposition of these eight buildings. In addition, the Company's interest in cash distributions from the joint venture increased from 25% to 50% as a result of meeting its performance measures. Therefore, the Company recognized additional income of \$1,008,000 in 2002. As of December 31, 2002, the joint venture held six buildings totaling 124,000 square feet. During January, 2003, five of the remaining six buildings were sold and the Company recognized gains of approximately \$1.1 million as a result of these sales and additional income of approximately \$700,000 in the first quarter of 2003. The remaining building with approximately 29,000 square feet was sold in April, 2003. During the second quarter of 2003, the Company recognized a gain of \$300,000 and additional income of \$200,000.

Results of Operations

Results of Operations: Net income allocable to common shareholders for the third quarter of 2003 was \$7.8 million or \$0.36 per diluted share on revenues of \$49.1 million compared to \$9.9 million or \$0.46 per diluted share on revenues of \$48.1 million for the same period in 2002. Net income allocable to common shareholders for the nine months ended September 30, 2003 was \$26.6 million or \$1.24 per diluted share on revenues of \$148.2 million compared to net income allocable to common shareholders of \$32.5 million or \$1.49 per diluted share on revenues of \$145.0 million for the same period in 2002.

Net income allocable to common shareholders for the three months ended September 30, 2003 decreased \$2.1 million or \$0.10 per share from the comparable period in 2002 due primarily to a reduction in gains on dispositions, net of impairment losses of \$1.1 million or \$0.04 per share, a reduction in "Same Park" results of \$1.0 million or \$0.03 per share, and increased depreciation expense due to acquisitions of \$.8 million or \$0.03 per diluted share.

Net income allocable to common shareholders for the nine months ended September 30, 2003 decreased \$5.9 million or \$0.25 per share compared to the same period in 2002 due primarily to a net reduction in gains on dispositions of real estate marketable securities, net of impairment losses of \$4.9 million or \$0.17 per share in addition to a reduction in "Same Park" results of \$2.5 million or \$0.09 per share.

The Company's property operations account for almost all of the net operating income earned by the Company. Net operating income ("NOI") is an important measurement in the commercial real estate industry for determining the value of the real estate generating the NOI. The key components of NOI are "rental income" less "cost of operations" excluding the effects of accounting for rental revenues on a straight-line basis for the periods presented (known as "straight-line rent adjustment") and depreciation. The Company's calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance in accordance with generally accepted accounting principles. The following table presents the operating results of the properties for the three and nine months ended September 30, 2003 and 2002 in addition to other income and expense items affecting income from continuing operations:

	Three Months Ended September 30,		Change
	2003	2002	
Rental income:			
"Same Park" facilities (13.8 million net rentable square feet)	\$ 46,206,000	\$ 46,938,000	(1.6%)
Other facilities (1.0 million net rentable square feet)	1,741,000	310,000	461.6%
Rental income before straight-line rent adjustment.....	47,947,000	47,248,000	1.5%
Straight line rent adjustment:			
"Same Park" facilities	613,000	529,000	N/A
Other facilities	180,000	12,000	N/A
Total rental income.....	\$ 48,740,000	\$ 47,789,000	2.0%
Cost of operations (excluding depreciation):			
"Same Park" facilities	\$ 12,732,000	\$ 12,392,000	2.7%
Other facilities	801,000	113,000	608.8%
Total cost of operations (excluding depreciation)	\$ 13,533,000	\$ 12,505,000	8.2%
Net operating income (rental income less cost of operations) ⁽¹⁾ :			
"Same Park" facilities ⁽²⁾	\$ 33,474,000	\$ 34,546,000	(3.1%)
Other facilities	940,000	197,000	377.2%
Total net operating income before straight line rent adjustment	34,414,000	34,743,000	(0.9%)
Straight line rent adjustment.....	793,000	541,000	N/A
Total net operating income	\$ 35,207,000	\$ 35,284,000	0.2%
Income:			
Facility management fees, net	\$ 141,000	\$ 147,000	(4.1%)
Interest and other income	145,000	71,000	104.2%
Expenses:			
Depreciation and amortization	15,382,000	14,192,000	8.4%
General and administrative.....	1,056,000	1,282,000	(17.6%)
Interest expense	1,013,000	1,115,000	(9.1%)
Income before gain on disposal of real estate, discontinued operations and minority interest and gain on sale of marketable securities	\$ 18,042,000	\$ 18,913,000	(4.6%)
"Same Park" gross margin ⁽³⁾	72.4%	73.6%	(1.6%)
"Same Park" Weighted average for period:			
Occupancy	92.5%	93.9%	(1.5%)
Annualized realized rent per square foot ⁽⁴⁾	\$ 14.54	\$ 14.45	0.6%

(1) Net operating income ("NOI") is an important measurement in the commercial real estate industry for determining the value of the real estate generating the NOI. The key components of NOI are "rental income" less "cost of operations" excluding the effects of the straight-line rent adjustment and depreciation. The Company breaks out "Same Park" operations to provide information regarding trends for properties the Company has held for the periods being compared.

(2) See "Supplemental Property Data and Trends" below for a definition of "Same Park" facilities.

(3) Gross margin is computed by dividing NOI by rental income before the straight line rent adjustment.

(4) Realized rent per square foot represents the actual revenues earned per occupied square foot before straight line rent adjustment.

	Nine Months Ended September 30,		Change
	2003	2002	
Rental income:			
“Same Park” facilities (13.8 million net rentable square feet)	\$ 139,427,000	\$ 140,396,000	(0.7%)
Other facilities (1.0 million net rentable square feet)	3,814,000	965,000	295.2%
Rental income before straight-line rent adjustment.....	143,241,000	141,361,000	1.3%

<u>“Same Park” Weighted average for period:</u>			
Occupancy	92.6%	94.5%	(2.0%)
Annualized realized rent per square foot ⁽⁴⁾	\$ 14.61	\$ 14.41	1.4%

(1) Net operating income (“NOI”) is an important measurement in the commercial real estate industry for determining the value of the real estate generating the NOI. The key components of NOI are “rental income” less “cost of operations” excluding the effects of the straight-line rent adjustment and depreciation. The Company breaks out “Same Park” operations to provide information regarding trends for properties the Company has held for the periods being compared.

(2) See “Supplemental Property Data and Trends” below for a definition of “Same Park” facilities.

(3) Gross margin is computed by dividing NOI by rental income before the straight line rent adjustment.

(4) Realized rent per square foot represents the actual revenues earned per occupied square foot before straight line rent adjustment.

Concentration of Portfolio by Region: Rental income and rental income less cost of operations or net operating income prior to depreciation and the straight-line rent adjustment (defined as “NOI” for purposes of the following tables) are summarized for the three and nine months ended September 30, 2003 by major geographic region below. Note that the Company excludes the effects of depreciation and straight-line rent adjustment in the calculation of NOI because the table below is designed to illustrate the concentration of value of the portfolio in the respective regions. The effects of depreciation and the straight-line rent adjustment are generally not considered when determining value in the real estate industry. The Company’s calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance in accordance with generally accepted accounting principles. Below the table of rental income and NOI based on geographical concentration is a reconciliation to the most comparable amounts determined based on generally accepted accounting principles.

Three Months Ended September 30, 2003

Region	Square Footage	Percent of Total	Rental Income (000’s)	Percent of Total	NOI (000’s)	Percent of Total
Southern California	3,556,000	24.1%	\$ 12,048	25.1%	\$ 8,922	25.9%
Northern California	1,495,000	10.1%	5,023	10.5%	3,977	11.6%

Straight line rent adjustment			1,352		1,352	
Less: Depreciation and amortization expense			N/A		(43,186)	
Total based on generally accepted accounting principles			\$ 144,593		\$ 61,814	

Concentration of Credit Risk by Industry: The information below depicts the industry concentration of our tenant base as of September 30, 2003. The Company analyzes this concentration to minimize significant industry exposure risk.

Business services	13.4%
Computer hardware, software, and related service	13.0%
Government	10.7%
Contractors	9.2%
Financial services	7.7%
Retail	6.1%
Home furnishings	6.0%
Electronics	5.6%
Communications	4.4%
Manufacturing and assembly	4.2%
	80.3%

Supplemental Property Data and Trends: In order to evaluate the performance of the Company’s overall portfolio, management analyzes the operating performance of a consistent group of properties constituting 13.8 million net rentable square feet (“Same Park” facilities). The Company currently has owned and operated them for the comparable periods. These properties do not include properties that have been acquired or sold during 2003 and 2002. The “Same Park” facilities represent approximately 93.2% of the weighted average square footage of the Company’s portfolio for 2003.

The following table summarizes the pre-depreciation historical operating results of the “Same Park” facilities excluding the effects of accounting for rental revenues on a straight-line basis for the nine months ended September 30, 2003 and 2002. The Company excludes the effect of depreciation and straight-line rent accounting because these non-cash accounts have the effect of smoothing earnings and masking trends in operating results. Below the table is a reconciliation to the most comparable amount, determined based on generally accepted accounting principles.

The following tables summarize the "Same Park" operating results by major geographic region for the three months ended September 30, 2003 and 2002:

Region	Revenues 2003	Revenues 2002	Increase (Decrease)	NOI 2003	NOI 2002	Increase (Decrease)
Southern California	\$ 10,797,000	\$10,296,000	4.9%	\$ 8,307,000	\$ 7,768,000	6.9%

Southern California

This region includes San Diego, Orange and Los Angeles Counties. The increase in revenues and NOI are the result of this market being the most stable market in the country during 2003 with a diverse economy that felt only modest effects of the technology slump. Weighted average occupancies have decreased from 97.7% for the first nine months in 2002 to 97.2% for the first nine months in 2003. Realized rent per foot has increased 3.0% from \$13.55 per foot for the first nine months in 2002 to \$13.95 per foot for the first nine months in 2003.

Northern California

This region includes San Jose, San Francisco and Sacramento, including 1,025,000 square feet in the Silicon Valley, a market that has been devastated by the technology slump. The Company benefited from the early renewal of large leases in its Silicon Valley portfolio and relative strength in the Sacramento market. Weighted average occupancies have outperformed the market and decreased from 97.1% for the first nine months in 2002 to 95.1% for the first nine months in 2003. Realized rent per foot has decreased 1.7% from \$14.41 per foot for the first nine months in 2002 compared to \$14.17 per foot for the first nine months in 2003.

Austin, Texas

This region was among the hardest hit due to the technology slump and the Company's operating results are showing the effects of sharply reduced market rental rates, higher vacancies and business failures. Weighted average occupancies have increased slightly from 90.3% for the first nine months in 2002 to 90.8% for the first nine months in 2003. Realized rent per foot has decreased 6.1% from \$11.88 per foot for the first nine months in 2002 to \$11.16 per foot for the first nine months in 2003.

Northern Texas

This region includes Dallas and Houston. The strength in the Company's Houston portfolio has been mostly offset by the effects of the slowdown in the telecommunications industry impacting the Dallas portfolio. Weighted average occupancies have increased slightly from 93.5% for the first nine months in 2002 to 93.8% for the first nine months in 2003. Realized rent per foot has decreased 3.1% from \$11.56 per foot for the first nine months in 2002 to \$11.20 per foot for the first nine months in 2003.

Virginia

The Virginia region includes all major Northern Virginia submarkets surrounding the Washington D.C. metropolitan area. Virginia has been negatively impacted in the Chantilly and Herndon submarkets as a result of the technology and telecommunications industry slowdown. Other submarkets have been positively impacted by increased federal government spending on defense. Weighted average occupancies have increased from 92.1% for the first nine months in 2002 to 95.0% for the first nine months in 2003. Realized rent per foot has increased 4.4% from \$16.55 per foot for the first nine months in 2002 to \$17.27 per foot for the first nine months in 2003.

Maryland

The Maryland region consists primarily of facilities in Prince Georges County and Montgomery County. While these markets have been relatively stable, weighted average occupancies have decreased from 93.9% for the first nine months in 2002 to 87.8% for the first nine months in 2003, partially as a result of some unexpected lease terminations. Realized rent per foot has increased 9.4% from \$16.92 per foot for the first nine months in 2002 to \$18.51 per foot for the first nine months in 2003.

Oregon

The Oregon region consists primarily of three business parks in the Beaverton submarket of Portland. Oregon has been one of the markets hardest hit by the technology slowdown. The full effect of this slowdown has begun to take effect in 2003 with lease terminations and expirations resulting in significant declines in rental revenue. Weighted average occupancies have decreased from 94.5% for the first nine months in 2002 to 80.5% for the first nine months in 2003.

Realized rent per foot has decreased 1.3% from \$16.43 per foot for the first nine months in 2002 to \$16.12 per foot for the first nine months in 2003.

Facility Management Operations: The Company's facility management operations account for a small portion of the Company's net income. During the three months ended September 30, 2003, \$141,000 in net income was recognized from facility management operations compared to \$147,000 for the same period in 2002. During the nine months ended September 30, 2003, \$451,000 in net income was recognized from facility management operations compared to \$443,000 for the same period in 2002.

Interest and Other Income: Interest and other income reflects earnings on cash balances and dividends on marketable securities in addition to miscellaneous income items. Interest income was \$90,000 for the three months ended September 30, 2003 compared to \$47,000 for the same period in 2002. Average cash balances and other interest bearing investments and effective interest rates for the three months ended September 30, 2003 were approximately \$34 million and 0.93% compared to \$10 million and 2.0% for the same period in 2002. Interest income was \$414,000 for the nine months ended September 30, 2003 compared to \$643,000 for the same period in 2002. Average cash balances and other interest bearing investments and effective interest rates for the nine months ended September 30, 2003 were approximately \$40 million and 1.1% compared to \$26 million and 3.2% for the same period in 2002. Other income includes income from business services and construction management fees of \$55,000 and \$556,000 for the three and nine months ended September 30, 2003 compared to \$24,000 and \$93,000 for the same periods in 2002.

Cost of Operations: Cost of operations for the three months ended September 30, 2003 was \$13.5 million compared to \$12.5 million for the same period in 2002. Cost of operations for the nine months ended September 30, 2003 was \$39.6 million compared to \$38.1 million for the same period in 2002. The increase is due primarily to acquisitions completed during the first six months of 2003. Cost of operations for the nine months ended September 30, 2003 as a percentage of rental income is slightly higher at 27.4% in 2003 compared to 26.5% for the same period in 2002 due primarily to lower rental income without a corresponding decrease in costs, combined with the acquisition of a park with substantial vacancy.

Depreciation and Amortization Expense: Depreciation and amortization expense for the three months ended September 30, 2003 was \$15.4 million compared to \$14.6 million for the same period in 2002. Depreciation and amortization expense for the nine months ended September 30, 2003 was \$43.2 million compared to \$42.9 million for the same period in 2002. The increase is primarily due to depreciation expense on real estate facilities developed during 2002 and acquisitions that occurred in 2003.

General and Administrative Expense: General and administrative expense was \$1.1 million for the three months ended September 30, 2003 compared to \$1.3 million for the same period in 2002. General and administrative expense was \$3.5 million for the nine months ended September 30, 2003 compared to \$3.8 million for the same period in 2002. Included in general and administrative costs are internal acquisition expenses, and costs related to the business services program. Business services related costs were \$3,000 and \$38,000 for the three and nine months ended September 30, 2003, compared to \$88,000 and \$376,000 for the three and nine months ended September 30, 2002, respectively. Acquisition expenses were \$168,000 and \$439,000 for the three and nine months ended September 30, 2003 and \$103,000 and \$416,000 for the three and nine months ended September 30, 2002.

Interest Expense: Interest expense was \$1.0 million for the three months ended September 30, 2003 compared to \$1.1 million for the same period in 2002. Interest expense was \$3.0 million for the nine months ended September 30, 2003 compared to \$4.1 million for the same period in 2002. The decrease is primarily attributable to reduced debt balances in 2003 due primarily to the repayment of mortgage debt and short-term debt during 2002 through the use of retained cash, and proceeds from the issuance of preferred stock and units. Interest expense of none and \$288,000 was capitalized as part of building costs associated with properties under development during the nine months ended September 30, 2003 and 2002, respectively.

Gain on Disposition of Real Estate: Gain on disposition of real estate for the three months ended September 30, 2003 was \$14,000 compared to \$2.0 million for the same period ended September 30, 2003. Gain on disposition of real estate for the nine months ended September 30, 2003 was \$3.5 million compared to \$7.4 million for the same period ended September

30, 2002. During the three months ended June 30, 2003 the Company disposed of three properties, one in Lakewood and two in Nashville, for approximately \$11.4 million. A gain on the sale of the Lakewood property of \$3.2 million and a gain on the sale of the Nashville properties of \$300,000 were recognized in the second quarter. The Company disposed of a property in San Diego for approximately \$9 million in November 2001 and deferred a gain of \$5,366,000 which was later recognized in 2002 when the buyer of the property obtained third party financing for the property and paid off its note to the Company.

Impairment Charge on Properties Held for Sale: An impairment charge of \$5.9 million was recognized during the nine months ended September 30, 2003. For the same period ended September 30, 2002, \$900,000 impairment charge was recognized. The impairment loss in 2003 is specific to five office and flex buildings, and a 3.5 acre parcel of land in Beaverton, Oregon that are being marketed for sale. The impairment loss in 2002 was allocable to properties located in San Antonio, Texas that were disposed of in 2002.

Equity Income of Discontinued Joint Venture: Equity income of discontinued joint venture reflects the Company's share of net income from its joint venture. Equity income of discontinued joint venture was none for the three months ended September 30, 2003 compared to \$138,000 for the same period in 2002. Equity income of discontinued joint venture was \$2.3 million for the nine months ended September 30, 2003 compared to \$387,000 for the same period in 2002. The increase in 2003 is due to the gain on sale of the remaining six buildings in the joint venture of \$1,376,000 and additional income for meeting performance measures of \$920,000.

Liquidity and Capital Resources

Net cash provided by operating activities for the nine months ended September 30, 2003 and 2002 was \$102.6 million and \$97.8 million, respectively. Management believes that the Company's internally generated net cash provided by operating activities will continue to be sufficient to enable it to meet its operating expenses, capital improvements and debt service requirements and to maintain the current level of distributions to shareholders in addition to providing additional returned cash for future growth, debt repayment, and stock repurchase. The table further illustrates the remaining amount of funds available for adding to the value of the Company either through investment or repayment of debt after distribution to shareholders.

The following table summarizes the Company's cash flow from operating activities after recurring capital expenditures:

	Nine Months Ended September 30,	
	2003	2002
Net income.....	\$ 38,491,000	\$ 44,018,000
Depreciation and amortization.....	43,237,000	42,885,000
Minority interest in income.....	23,494,000	24,256,000
Equity income of discontinued joint venture.....	(2,296,000)	(265,000)
Gain on sale of marketable securities.....	(2,043,000)	(41,000)
Gain on disposal of properties.....	(3,498,000)	(7,407,000)
Impairment charge on properties held for sale.....	5,907,000	900,000
Change in working capital.....	(726,000)	(6,562,000)
Net cash provided by operating activities.....	<u>102,566,000</u>	<u>97,784,000</u>
Maintenance capital expenditures.....	(2,798,000)	(3,508,000)
Tenant improvements.....	(9,236,000)	(7,313,000)
Capitalized lease commissions.....	(3,577,000)	(2,861,000)
Funds available for distributions to shareholders, minority interests, acquisitions and other corporate purposes.....	86,955,000	84,102,000
Cash distributions to shareholders and minority interests.....	<u>(51,189,000)</u>	<u>(54,149,000)</u>
Excess funds available for principal payments on debt, investments in real estate and other corporate purposes.....	<u>\$ 35,766,000</u>	<u>\$ 29,953,000</u>

The Company's capital structure is characterized by a low level of leverage. As of September 30, 2003, the Company had three fixed rate mortgage notes payable totaling \$19.8 million, which represented 1.3% of its total capitalization (based on book value, including minority interest and debt). The weighted average interest rate for the mortgage notes is 7.46%. The Company estimates that approximately 2.0% of its properties, in terms of value are encumbered. The Company also has a seven year \$50 million term loan agreement with Fleet National Bank. The note bears interest at LIBOR plus 1.45% and is due on February 20, 2009. In July, 2002, the Company entered into an interest swap transaction which had the effect of fixing the rate on the term loan through July, 2004 at 4.46% per annum.

The following table outlines upcoming cash flow requirements due to contractual commitments in connection with the Company's mortgage notes and term loan which have a weighted average interest rate of 5.31% and an average maturity of 5.0 years. At September 30, 2003, approximate principal maturities of mortgage notes and term loan payables are as follows:

2003.....	\$ 151,000
2004.....	631,000
2005.....	680,000
2006.....	7,890,000
2007.....	5,169,000
Thereafter.....	55,323,000
	<u>\$ 69,844,000</u>

The Company's funding strategy is to use permanent capital, including common and preferred stock, and internally generated retained cash flows. In addition, the Company may sell properties that no longer meet its investment criteria. The Company may finance acquisitions on a temporary basis with borrowings from its Credit Facility. The Company targets a leverage ratio of 40% (defined as debt and preferred equity as a percentage of market capitalization). In addition, the Company targets a ratio of Funds from Operations ("FFO") to combined fixed charges and preferred distributions of 3.0 to 1.0. As of September 30, 2003, the leverage ratio was 30% and the FFO to fixed charges and preferred distributions coverage ratio was 3.7 to 1.0 for the nine months ended September 30, 2003.

In October 2002, the Company extended its Credit Facility with Wells Fargo Bank. The Credit Facility has a borrowing limit of \$100 million and an expiration date of August 1, 2005. Interest on outstanding borrowings is payable monthly. At the option of the Company, the rate of interest charged is equal to (i) the prime rate or (ii) a rate ranging from the London Interbank Offered Rate ("LIBOR") plus 0.65% to LIBOR plus 1.25% depending on the Company's credit ratings and coverage ratios, as defined (currently LIBOR plus 0.85%). In addition, the Company is required to pay an annual commitment fee of up to 0.25% of the borrowing limit. As of September 30, 2003, there was no balance outstanding on the Credit Facility.

Funds from Operations: FFO is defined as net income, computed in accordance with generally accepted accounting principles ("GAAP"), before depreciation, amortization, minority interest in income and extraordinary or non-recurring items. FFO is presented because the Company considers FFO to be a useful measure of the operating performance of a REIT which, together with net income and cash flows, provides investors with a basis to evaluate the operating and cash flow performances of a REIT. FFO does not represent net income or cash flows from operations as defined by GAAP. FFO does not take into consideration scheduled principal payments on debt or capital improvements. The Company believes that in order to facilitate a clear understanding of the Company's operating results, FFO should be analyzed in conjunction with net income as presented in the Company's consolidated financial statements included elsewhere in this Form 10-Q. Accordingly, FFO is not necessarily a substitute for cash flow or net income as a measure of liquidity or operating performance or ability to make acquisitions and capital improvements or ability to make distributions or debt principal payments.

Also, FFO as computed and disclosed by the Company, though computed in conformity with the National Association of Real Estate Investment Trusts' definition, may not be comparable to FFO computed and disclosed by other REITs. FFO for the Company is computed as follows:

	Nine Months Ended September 30,	
	2003	2002
Net income allocable to common shareholders	\$ 26,586,000	\$ 32,535,000
Less: Gain on sale of marketable securities	(2,043,000)	(41,000)
Less: Gain on disposition of real estate.....	(3,498,000)	(7,407,000)
Less: Equity income from sale of joint venture properties	(1,376,000)	(265,000)
Impairment charge for properties held for sale	5,907,000	900,000
Depreciation and amortization	43,237,000	42,885,000
Depreciation from joint venture.....	-	57,000
Minority interest in income – common units	9,064,000	11,019,000
Consolidated FFO allocable to common shareholders and minority interests.....	77,877,000	79,683,000
FFO allocated to common minority interest – common units.....	19,781,000	20,159,000
FFO allocated to common shareholders	<u>\$ 58,096,000</u>	<u>\$ 59,524,000</u>

Capital Expenditures: On a recurring annual basis, the Company expects to expend between \$0.90 and \$1.40 per square foot in recurring capital expenditures (\$13-\$20 million based on square footage at September 30, 2003). During 2002, however, the Company incurred \$22.1 million in recurring capital expenditures or \$1.53 per-weighted average square foot. This amount was higher than the Company expects to incur on a recurring basis due to more generous tenant improvement allowances and higher broker commissions resulting from soft market conditions. The Company expects these conditions to continue or worsen through 2004 and recurring capital expenditures could be in excess of \$1.50 per square foot. The following depicts actual capital expenditures for the nine months ended September 30, 2003 and the amounts expected to be expended for the remainder of 2003 (note that the timing and amount of capital expenditures can differ materially from the expectations):

	Nine Months Ended September 30, 2003	Forecasted for Three Months Ending December 31, 2003	Forecasted for Year Ending December 31, 2003
Recurring capital expenditures.....	\$ 15,611,000	\$ 6,000,000	\$ 21,611,000
First generation tenant improvements and leasing commissions on developed properties.....	492,000	500,000	992,000
Property renovations and other capital expenditures.....	<u>8,957,000</u>	<u>1,500,000</u>	<u>10,457,000</u>
Total capital expenditures.....	<u>\$ 25,060,000</u>	<u>\$ 8,000,000</u>	<u>\$ 33,060,000</u>

Stock Repurchase: The Company's Board of Directors has authorized the repurchase from time to time of up to 4,500,000 shares of the Company's common stock on the open market or in privately negotiated transactions. From January 1, 2003 through September 30, 2003, the Company repurchased 261,200 shares at an aggregate cost of approximately \$8,119,000 or \$31.08 per share. Since the inception of the program (March 2000), the Company has repurchased an aggregate total of 2,621,711 shares of common stock and 30,484 common units in its operating partnership at an aggregate cost of approximately \$70.7 million (average cost of \$26.65 per share/unit).

Redemption of Preferred Stock: On May 22, 2003 and September 30, 2003, the Company repurchased 7,300 and 78,300 depository units of Series A preferred stock at \$26.00 and \$25.65 per unit, for \$190,000 and \$2.0 million, respectively. The stated value of the stock was \$25 per depository share. The premium and original issuance costs were recorded as an additional distribution to preferred shareholders. The aggregate effect was a reduction of \$127,000 of net income and funds from operations allocable to common shareholders and unit holders.

Distributions: The Company has elected and intends to qualify as a REIT for federal income tax purposes. In order to maintain its status as a REIT, the Company must meet, among other tests, sources of income, share ownership and certain asset tests. As a REIT, the Company is not taxed on that portion of its taxable income that is distributed to its shareholders provided that at least 90% of its taxable income is distributed to its shareholders prior to filing of its tax return.

Related Party Transactions: At September 30, 2003, PSI owned 25.2% of the outstanding shares of the Company's common stock (44.2% upon conversion of its interest in the Operating Partnership) and 25.4% of the outstanding common units of the Operating Partnership (100% of the common units not owned by the Company). Ronald L. Havner, Jr., the Company's chairman, is also the vice-chairman, chief executive officer and a director of PSI. The portion of his compensation allocated to the Company is reviewed and approved by the Company's Compensation Committee.

Pursuant to a cost sharing and administrative services agreement, the Company shares costs with PSI and affiliated entities for certain administrative services. These costs totaled approximately \$255,000 for each of the nine months ended September 30, 2003 and 2002 and are allocated among PSI and its affiliates in accordance with a methodology intended to fairly allocate those costs. In addition, the Company provides property management services for properties owned by PSI and

its affiliates for a fee of 5% of the gross revenues of such properties in addition to reimbursement of direct costs. These management fee revenues recognized under management contracts with affiliated parties totaled approximately \$439,000 and \$454,000 for the nine months ended September 30, 2003, and 2002, respectively. In addition, the Company combines its insurance purchasing power with PSI through a captive insurance company controlled by PSI, STOR-Re Mutual Insurance Corporation (“Stor-Re”). Stor-Re provides limited property and liability insurance to the Company at commercially competitive rates. The Company and PSI also utilize unaffiliated insurance carriers to provide property and liability insurance in excess of Stor-Re’s limitations.

ITEM 2A. RISK FACTORS

In addition to the other information in this Form 10-Q, the following factors should be considered in evaluating our company and our business.

PSI has significant influence over us.

PSI owns a substantial number of our shares and of the units of our operating partnership: At September 30, 2003, PSI and its affiliates owned 25.2% of the outstanding shares of our common stock (44.2% upon conversion of its interest in our operating partnership) and 25.4% of the outstanding common units of our operating partnership (100% of the common units not owned by us). Consequently, PSI has the ability to significantly influence all matters submitted to a vote of our shareholders, including electing directors, changing our articles of incorporation, dissolving and approving other extraordinary transactions such as mergers, and all matters requiring the consent of the limited partners of the operating partnership. In addition, PSI's ownership may make it more difficult for another party to take over our company without PSI's approval.

Provisions in our organizational documents may prevent changes in control.

Our articles generally prohibit owning more than 7% of our shares: Our articles of incorporation restrict the number of shares that may be owned by any person (other than PSI and certain other specified shareholders), and the partnership agreement of our operating partnership contains an anti-takeover provision. No shareholder (other than PSI and certain other specified shareholders) may own more than 7% of the outstanding shares of our common stock, unless our board of directors waives this limitation. We imposed this limitation to avoid, to the extent possible, a concentration of ownership that might jeopardize our ability to qualify as a real estate investment trust, or REIT. This limitation, however, also makes a change of control much more difficult even if it may be favorable to our public shareholders. These provisions will prevent future takeover attempts not approved by PSI even if a majority of our public shareholders consider it to be in their best interests because they would receive a premium for their shares over the shares' then market value or for other reasons.

Our board can set the terms of certain securities without shareholder approval: Our board of directors is authorized, without shareholder approval, to issue up to 50,000,000 shares of preferred stock and up to 100,000,000 shares of equity stock, in each case in one or more series. Our board has the right to set the terms of each of these series of stock. Consequently, the board could set the terms of a series of stock that could make it difficult (if not impossible) for another party to take over our company even if it might be favorable to our public shareholders. We can also cause our operating partnership to issue additional interests for cash or in exchange for property.

The partnership agreement of our operating partnership restricts mergers: The partnership agreement of our operating partnership provides that generally we may not merge or engage in a similar transaction unless limited partners of our operating partnership are entitled to receive the same proportionate payments as our shareholders. In addition, we have agreed not to merge with another entity unless the merger would have been approved had the limited partners been able to vote together with our shareholders, which has the effect of increasing PSI's influence over us due to PSI's ownership of operating partnership units. These provisions may make it more difficult for us to merge with another entity.

Our operating partnership poses additional risks to us.

Limited partners of our operating partnership, including PSI, have the right to vote on certain changes to the partnership agreement. They may vote in a way that is contrary to the interest of our shareholders. Also, as general partner of our operating partnership, we are required to protect the interests of the limited partners of our operating partnership. The interests of the limited partners and of our shareholders may differ.

We cannot sell certain properties without PSI's approval.

Before 2007, we may not sell 12 specified properties representing 8.8% of the Company's square footage without PSI's approval. Since PSI would be taxed on a sale of these properties, the interests of PSI and our other shareholders may differ as to the best time to sell.

We would incur adverse tax consequences if we fail to qualify as a REIT.

Our cash flow would be reduced if we fail to qualify as a REIT: While we believe that we have qualified since 1990 to be taxed as a REIT, and will continue to be qualified, we cannot be certain of that we have qualified as a REIT since 1990 or that we will continue to do so. To continue to qualify as a REIT, we need to satisfy certain requirements under the federal income tax laws relating to our income, assets, distributions to shareholders and shareholder base. In this regard, the share ownership limits in our articles of incorporation do not necessarily ensure that our shareholder base is sufficiently diverse for us to qualify as a REIT. For any year we fail to qualify as a REIT, we would be taxed at regular corporate tax rates on our taxable income unless certain relief provisions apply. Taxes would reduce our cash available for distributions to shareholders or for reinvestment, which could adversely affect us and our shareholders. Also we would not be allowed to elect REIT status for five years after we fail to qualify unless certain relief provisions apply.

Our cash flow would be reduced if our predecessor failed to qualify as a REIT: For us to qualify to be taxed as a REIT, our predecessor, American Office Park Properties, also needed to qualify to be taxed as a REIT. We believe American Office Park Properties qualified as a REIT beginning in 1997 until its March 1998 merger with us. If it is determined that it did not qualify as a REIT, we could also lose our REIT qualification. Before 1997, our predecessor was a taxable corporation and, to qualify as a REIT, was required to distribute all of its cumulative retained profits before the end of 1996. Because a determination of the precise amount of profits retained by a company over a sustained period of time is very difficult, there is some risk that not all of American Office Park Properties' profits were so distributed. While we believe American Office Park Properties qualified as a REIT since 1997, we did not obtain an opinion of an outside expert at the time of its merger with us.

We may need to borrow funds to meet our REIT distribution requirements: To qualify as a REIT, we must generally distribute to our shareholders 90% of our taxable income. Our income consists primarily of our share of our operating partnership's income. We intend to make sufficient distributions to qualify as a REIT and otherwise avoid corporate tax. However, differences in timing between income and expenses and the need to make nondeductible expenditures such as capital improvements and principal payments on debt could force us to borrow funds to make necessary shareholder distributions.

Since we buy and operate real estate, we are subject to general real estate investment and operating risks.

Summary of real estate risks: We own and operate commercial properties and are subject to the risks of owning real estate generally and commercial properties in particular. These risks include:

- the national, state and local economic climate and real estate conditions, such as oversupply of or reduced demand for space and changes in market rental rates;
- how prospective tenants perceive the attractiveness, convenience and safety of our properties;
- our ability to provide adequate management, maintenance and insurance;
- our ability to collect rent from tenants on a timely basis;
- the expense of periodically renovating, repairing and reletting spaces;
- increasing operating costs, including real estate taxes, insurance and utilities, if these increased costs cannot be passed through to tenants;
- changes in tax, real estate and zoning laws;

- increase in new developments;
- tenant bankruptcies;
- sublease space; and
- concentration in non-rated private companies.

Certain significant costs, such as mortgage payments, real estate taxes, insurance and maintenance costs, generally are not reduced even when a property's rental income is reduced. In addition, environmental and tax laws, interest rate levels, the availability of financing and other factors may affect real estate values and property income. Furthermore, the supply of commercial space fluctuates with market conditions.

If our properties do not generate sufficient income to meet operating expenses, including any debt service, tenant improvements, leasing commissions and other capital expenditures, we may have to borrow additional amounts to cover fixed costs, and we may have to reduce our distributions to shareholders.

During 2002 and 2003, we were affected by the slowdown in economic activity in the United States in most of its primary markets. These effects were exacerbated by the terrorist attacks of September 11, 2001, the related aftermath, geopolitical events, and the war on Iraq. These effects included a decline in occupancy rates and a reduction in market rates throughout the portfolio, slower than expected lease-up of our development properties, lower interest rates on invested cash and higher insurance costs. An extended economic slowdown will put additional downward pressure on occupancies and market rental rates and may lead to pressure for greater rent concessions, or generous tenant improvement allowances and higher broker commissions.

We may encounter significant delays in reletting vacant space, resulting in losses of income: When leases expire, we will incur expenses and we may not be able to release the space on the same terms. Certain leases provide tenants with the right to terminate early if they pay a fee. Our properties as of September 30, 2003 generally have lower vacancy rates than the average for the markets in which they are located, and leases for 27.4% of our space expire in 2003 or 2004 (leases for 12.6% of the space occupied by small tenants expire in such years). While we have estimated our cost of renewing leases that expire in 2003 and 2004, our estimates could be wrong. If we are unable to release space promptly, if the terms are significantly less favorable than anticipated or if the costs are higher, we may have to reduce our distributions to shareholders.

Leases with WorldCom and a related WorldCom entity, both of which are in bankruptcy, generate approximately 0.5% of our revenues. WorldCom and its bankrupt related entity have recently notified us that they are rejecting leases representing approximately 0.2% of our revenues and are threatening to reject the other leases with us. In addition, we believe that a second WorldCom related entity, although not in bankruptcy, may be in financial difficulty. A lease with this second WorldCom related entity generates approximately 0.5% of our revenues.

Tenant defaults and bankruptcies may reduce our cash flow and distributions: We may have difficulty in collecting from tenants in default, particularly if they declare bankruptcy. This could reduce our cash flow and distributions to shareholders.

We may be adversely affected by significant competition among commercial properties: Many other commercial properties compete with our properties for tenants and we expect that new properties will be built in our markets. Also, we compete with other buyers, many of whom are larger than we are, in seeking to acquire commercial properties. Therefore, we may not be able to grow as rapidly as we would like.

We may be adversely affected if casualties to our properties are not covered by insurance: We carry insurance on our properties that we believe is comparable to the insurance carried by other operators for similar properties. However, we could suffer uninsured losses that adversely affect us or even result in loss of properties. We might still remain liable on any mortgage debt related to that property.

The illiquidity of our real estate investments may prevent us from adjusting our portfolio to respond to market changes: There may be delays and difficulties in selling real estate. Therefore, we cannot easily change our portfolio when economic conditions change. Also, tax laws limit a REIT's ability to sell properties held for less than four years.

We may be adversely affected by governmental regulation of our properties: Our properties are subject to various federal, state and local regulatory requirements, such as state and local fire and safety codes. If we fail to comply with these requirements, governmental authorities could fine us or courts could award damages against us. We believe our properties comply with all significant legal requirements. However, these requirements could change in a way that would reduce our cash flow and ability to make distributions to shareholders.

We may incur significant environmental remediation costs: Under various federal, state and local environmental laws an owner or operator of real estate interests may have to clean spills or other releases of hazardous or toxic substances on or from a property. Certain environmental laws impose liability whether or not the owner knew of, or was responsible for, the presence of the hazardous or toxic substances. In some cases, liability may exceed the value of the property. The presence of toxic substances, or the failure to properly remedy any resulting contamination, may make it more difficult for the owner or operators to sell, lease or operate its property or to borrow money using its property as collateral. Future environmental laws may impose additional material liabilities on us.

We may be affected by the Americans with Disabilities Act: The Americans with Disabilities Act of 1990 requires that access and use by disabled persons of all public accommodations and commercial properties be facilitated. Existing commercial properties must be made accessible to disabled persons. While we have not estimated the cost of complying with this act, we do not believe the cost will be material. We have an ongoing program to bring our properties into what we believe is compliance with the American with Disabilities Act of 1990.

Our ability to control our properties may be adversely affected by ownership through partnerships and joint ventures.

We own most of our properties through our operating partnership. Our organizational documents do not limit our ability to invest funds with others in partnerships or joint ventures. These types of investment may present additional risks. For example, our partners may have interests that differ from ours or that conflict with ours, or our partners may become bankrupt. During 2001, we entered into a joint venture arrangement that held property subject to debt. This joint venture has been liquidated and all debts paid, however, the Company may enter into similar arrangements with the same partner or other partners.

We can change our business policies and increase our level of debt without shareholder approval.

Our board of directors establishes our investment, financing, distribution and other business policies and may change these policies without shareholder approval. Our organizational documents do not limit our level of debt. A change in our policies or an increase in our level of debt could adversely affect our operations or the price of our common stock.

We can issue additional securities without shareholder approval.

We can issue preferred and common stock without shareholder approval. Holders of preferred stock have priority over holders of common stock, and the issuance of additional shares of common stock reduces the interest of existing holders in our company.

We may invest in marketable securities without shareholders approval.

We have and may continue to invest in marketable securities. These marketable securities could decline in value and could adversely affect our net income or the price of our common stock.

Increases in interest rates may adversely affect the market price of our common stock.

One of the factors that influences the market price of our common stock is the annual rate of distributions that we pay on our common stock, as compared with interest rates. Interest rates in 2002 and 2003 have been at historically low levels. An increase in interest rates may lead purchasers of REIT shares to demand higher annual distribution rates, which could adversely affect the market price of our common stock.

Shares that become available for future sale may adversely affect the market price of our common stock.

Substantial sales of our common stock, or the perception that substantial sales may occur, could adversely affect the market price of our common stock. Certain of our shareholders hold significant numbers of shares of our common stock and, subject to compliance with applicable securities laws, could sell their shares.

We depend on key personnel.

We depend on our key personnel, including Ronald L. Havner, Jr., our chairman of the board and Joseph D. Russell, Jr., our chief executive officer and president. The loss of Mr. Havner, Mr. Russell, or other key personnel could adversely affect our operations. We maintain no key person insurance on our key personnel.

Terrorist attacks and the possibility of wider armed conflict may have an adverse impact on our business and operating results and could decrease the value of our assets.

Terrorist attacks and other acts of violence or war, such as those that took place on September 11, 2001, could have a material adverse impact on our business and operating results. There can be no assurance that there will not be further terrorist attacks against the United States or its businesses or interests. Attacks or armed conflicts that directly impact one or more of our properties could significantly affect our ability to operate those properties and thereby impair our operating results. Further, we may not have insurance coverage for losses caused by a terrorist attack. Such insurance may not be available, or if it is available and we decide to obtain such terrorist coverage, the cost for the insurance may be significant in relationship to the risk overall. In addition, the adverse effects that such violent acts and threats of future attacks could have on the U.S. economy could similarly have a material adverse effect on our business and results of operations. Finally, further terrorist acts could cause the United States to enter into a wider armed conflict which could further impact our business and operating results.

We may be affected by California's budget shortfall.

The California budget could affect the Company in many ways including: the possible repeal of Proposition 13, which could result in higher property taxes; reduced state and local government spending and the resulting effects on the state and local economies could have an adverse impact on demand for our space. The budget shortfall could impact the Company in other ways that cannot be predicted. California represents approximately 35% of the Company's net operating income.

Recent change in taxation of corporate dividends may adversely affect the value of our shares.

The Jobs and Growth Tax Relief Reconciliation Act of 2003, enacted on May 28, 2003 (the “Jobs and Growth Tax Act”), generally reduces to 15% the maximum marginal rate of federal tax payable by individuals on dividends received from a regular C corporation. This reduced tax rate, however, will not apply to dividends paid to individuals by a REIT on its shares except for certain limited amounts. The earnings of a REIT that are distributed to its shareholders still will generally be subject to less federal income taxation on an aggregate basis than earnings of a non-REIT C corporation that are distributed to its shareholders net of corporate-level income tax. The Jobs and Growth Tax Act, however, could cause individual investors to view stocks of regular C corporations as more attractive relative to shares of REITs than was the case prior to the enactment of the legislation because the dividends from regular C corporations, which previously were taxed at the same rate as REIT dividends, now will be taxed as a 15% rate while REIT dividends will be taxed at a 35% rate. We cannot predict what effect, if any, the enactment of this legislation may have on the value of our common shares, either in terms of price or relative to other investments.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

To limit the Company's exposure to market risk, the Company principally finances its operations and growth with permanent equity capital consisting of either common or preferred stock. At September 30, 2003, the Company's debt as a percentage of shareholders' equity and minority interest (based on book values) was 6.6%.

The Company's market risk sensitive instruments include mortgage notes payable and the Company's term loan which total \$19,844,000 and \$50,000,000, respectively, at September 30, 2003. All of the Company's mortgage notes payable bear interest at fixed rates. For the term loan, the Company entered into an interest rate swap transaction which had the effect of fixing the note on the term loan for two years (through July, 2004) at 4.46%. See Note 2 and Note 6 of the Notes to Consolidated Financial Statements for terms, valuations and approximate principal maturities of the mortgage notes payable as of September 30, 2003. Based on borrowing rates currently available to the Company, the carrying amount of debt approximates fair value.

ITEM 4. CONTROLS AND PROCEDURES

(a) *Evaluation of disclosure controls and procedures.* The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in reports the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" in Rule 13a-15(e) of the Exchange Act. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and management necessarily was required to apply its judgement in evaluating the cost-benefit relationship of possible controls and procedures in reaching that level of reasonable assurance. As of the end of the fiscal quarter covered by this report, the Company's management carried out an evaluation, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures. Based upon this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the fiscal quarter covered by this report, the Company's disclosure controls and procedures were effective.

(b) *Changes in internal control over financial reporting.* There has not been any change in the Company's internal control over financial reporting that occurred during the fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 5. OTHER INFORMATION

Management Changes

In August, 2003, Joseph D. Russell, Jr. was elected Chief Executive Officer of the Company to succeed Ronald L. Havner, Jr. Mr. Havner will continue as Chairman of the Board of Directors and intends to remain active in the Company's business, focusing on strategic and financial initiatives. Mr. Russell was also elected a director of the newly expanded Board.

Mr. Russell has served as President of the Company since September 2002. Before joining the Company he had worked at Spieker Partners for more than ten years, becoming an officer of Spieker Properties when it went public as a REIT in 1993. Prior to its merger with Equity Office Properties (EOP) in 2001, Mr. Russell was President of Spieker Properties' Silicon Valley Region. Mr. Russell earned a Bachelor of Science degree from the University of Southern California and a Masters of Business Administration from the Harvard Business School.

The Company's Chief Financial Officer, Jack E. Corrigan, has announced he will resign. Mr. Corrigan will remain with the Company until his successor is hired and becomes familiar with the Company's operations.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits

- 3.12 Amendments to Bylaws of PS Business Parks, Inc.
- 31.1 Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 31.2 Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

(b) Reports on Form 8-K

On July 9, 2003, a Current Report on Form 8-K was furnished to the SEC pursuant to Items 7(c) and 9 relating to the Company's operating results for the quarter ended June 30, 2003.

On August 1, 2003, a Current Report on Form 8-K was furnished to the SEC pursuant to Items 7(c) and 9 relating to the Company's operating results for the quarter ended June 30, 2003.

On August 13, 2003, a Current Report on Form 8-K was furnished to the SEC pursuant to Items 7(c) and 9 relating to the Company's announcement of management changes.

On September 17, 2003, a Current Report on Form 8-K was filed pursuant to Items 5 and 7(c) relating to the public offering of shares by a selling stockholder leases with a tenant in bankruptcy, and an additional risk factor due to a recent change in taxation of corporate dividends.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Dated: November 13, 2003

PS BUSINESS PARKS, INC.

BY: /s/ Jack Corrigan

Vice President and Chief Financial Officer

(Principal Financial Officer)

EXHIBIT INDEX

Exhibit 3.12	Amendments to Bylaws of PS Business Parks, Inc.
Exhibit 31.1	Certification of Chief Executive Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
Exhibit 31.2	Certification of Chief Financial Officer pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
Exhibit 32.1	Certifications of Chief Executive Officer and Chief Financial Officer pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.

**Amendments to Bylaws of PS Business Parks, Inc.
Adopted by the Board of Directors on August 12, 2003**

WHEREAS: The Board of Directors of this corporation considers it to be in the best interests of the corporation to increase the authorized number of directors of the corporation from seven (7) to eight (8);

WHEREAS: The corporation's Bylaws permit the Board of Directors to designate the number of directors of the corporation provided that such number is within the range of not less than five (5) or more than nine (9); and

NOW, THEREFORE, BE IT RESOLVED: That the second sentence of Section 2 of Article IV of the corporation's Bylaws is hereby amended to read as follows:

"The exact number of directors shall be eight (8) until changed within the limits specified above, by a bylaw amending this section 2, duly adopted by the board of directors or by the shareholders."

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Joseph D. Russell, Jr. certify that:

1. I have reviewed this quarterly report on Form 10-Q of PS Business Parks, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) [Paragraph omitted in accordance with SEC transition instructions contained in SEC Release 34-47986]
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO
18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Jack E. Corrigan certify that:

1. I have reviewed this quarterly report on Form 10-Q of PS Business Parks, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) [Paragraph omitted in accordance with SEC transition instructions contained in SEC Release 34-47986]
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Exhibit 32.1
Certification of CEO and CFO Pursuant to
18 U.S.C. Section 1350,
as Adopted Pursuant to
Section 906 of the Sarbanes-Oxley Act of 2002

In connection with the Quarterly Report on Form 10-Q of PS Business Parks, Inc. (the "Company") for the quarterly period ending June 30, 2003 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Joseph D. Russell Jr., as Chief Executive Officer of the Company, and Jack Corrigan, as Chief Financial Officer of the Company, each hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
