### **PS Business Parks, Inc. Reports Results for the Fourth Quarter Ended December 31, 2008**

**GLENDALE, California** — PS Business Parks, Inc. (NYSE:PSB) reported operating results for the fourth quarter ended December 31, 2008.

Net income allocable to common shareholders for the three months ended December 31, 2008 was \$9.6 million or \$0.47 per diluted share on revenues of \$71.7 million compared to \$3.8 million or \$0.17 per diluted share on revenues of \$70.0 million for the same period in 2007. Net income allocable to common shareholders for the year ended December 31, 2008 was \$23.4 million or \$1.13 per diluted share on revenues of \$284.2 million compared to \$17.7 million or \$0.82 per diluted share on revenues of \$271.5 million for the same period in 2007.

Revenues for the three months ended December 31, 2008 increased \$1.6 million over the same period of 2007 primarily as a result of an increase of \$1.1 million from the Company's Same Park portfolio. Net income allocable to common shareholders for the three months ended December 31, 2008 increased \$5.8 million over the same period of 2007 primarily as a result of the net gain of \$4.2 million on the repurchase of preferred stock combined with an increase in net operating income of \$1.9 million partially offset by a decrease in interest and other income of \$520,000.

Revenues for the year ended December 31, 2008 increased \$12.7 million over the same period of 2007 as a result of an increase of \$7.6 million from the Company's Same Park portfolio combined with an increase of \$5.1 million from acquired properties. Net income allocable to common shareholders for the year ended December 31, 2008 increased \$5.7 million over the same period of 2007 primarily as a result of an increase in net operating income of \$8.6 million combined with the net gain of \$4.2 million on the repurchase of preferred stock offset by a decrease in interest and other income of \$3.6 million and an increase in the allocation of income to minority interests of \$2.3 million.

### **Supplemental Measures**

Funds from operations ("FFO") allocable to common shareholders and unit holders for the three months ended December 31, 2008 and 2007 were \$37.6 million, or \$1.35 per diluted share, and \$31.8 million, or \$1.10 per diluted share, respectively. FFO allocable to common shareholders and unit holders for the year ended December 31, 2008 was \$131.6 million, or \$4.70 per diluted share, compared to \$122.4 million, or \$4.23 per diluted share, for the same period in 2007. The increase in FFO for the three months and year ended December 31, 2008 over the same period of 2007 was primarily due to a net gain of \$4.2 million on the repurchase of preferred stock combined with an increase in net operating income partially offset by the decrease in interest income as discussed above. Excluding the \$4.2 million net gain, FFO allocable to common shareholders and unit holders would have been \$33.3 million, or \$1.19 per diluted share, and \$127.3 million, or \$4.55 per diluted share, for the three months and year ended December 31, 2008, respectively.

## Property Operations

In order to evaluate the performance of the Company's overall portfolio over two comparable periods, management analyzes the operating performance of a consistent group of properties owned and operated throughout both periods (herein referred to as "Same Park"). Operating properties that the Company acquired subsequent to January 1, 2007 are referred to as "Non-Same Park." For the three months and years ended December 31, 2008 and 2007, the Same Park portfolio constitutes 18.7 million rentable square feet, which includes all assets the Company owned and operated from January 1, 2007 through December 31, 2008 and represents approximately 95.5% of the total square footage of the Company's portfolio as of December 31, 2008.

The Company's property operations account for substantially all of the net operating income earned by the Company. The following table presents the operating results of the Company's properties for the three months and years ended December 31, 2008 and 2007 in addition to other income and expense items affecting income before minority interests (unaudited, in thousands, except per square foot amounts):

(3) Net operating income ("NOI") is an important measurement in the commercial real estate industry for determining the value of the real estate generating the NOI. The Company's calculation of NOI may not be comparable to those of other companies and should not be used as an alternative to measures of performance in accordance with generally accepted accounting principles ("GAAP").

(4) Same Park gross margin is computed by dividing NOI by rental income.

(5) Same Park realized rent per square foot represents the annualized revenues earned per occupied square foot.

(1) Funds From Operations (“FFO”) is computed in accordance with the White Paper on FFO approved by the Board of Governors of the National Association of Real Estate Investment Trusts (“NAREIT”). The White Paper defines FFO as net income, computed in accordance with GAAP, before depreciation, amortization, minority interest in income, gains or losses on asset dispositions and nonrecurring items. FFO should be analyzed in conjunction with net income. However, FFO should not be viewed as a substitute for net income as a measure of operating performance or liquidity as it does not reflect depreciation and amortization costs or the level of capital expenditure and leasing costs necessary to maintain the operating performance of the Company’s properties, which are significant economic costs and could materially impact the Company’s results from operations. Other REITs may use different methods for calculating FFO and, accordingly, the Company’s FFO may not be comparable to other real estate companies.

(2) Funds available for distribution (“FAD”) is computed by adjusting consolidated FFO for recurring capital improvements, which the Company defines as those costs incurred to maintain the assets’ value, tenant improvements, lease commissions, straight-line rent, stock compensation expense, impairment charges, amortization of lease incentives and tenant improvement reimbursements, in-place lease adjustment and the impact of EITF Topic D-42. Like FFO, the Company considers FAD to be a useful measure for investors to evaluate the operations and cash flows of a REIT. FAD does not represent net income or cash flow from operations as defined by GAAP.
